Aleksandar Dimitrov

Frontend & Full-Stack Developer

Sofia, Bulgaria | Remote freelance / part-time | alex.06dimitrov@gmail.com

Portfolio | GitHub | LinkedIn

PROFILE

Developer focused on Angular, TypeScript, Strapi and API integrations. Professional full-stack role since August 2025, alongside independent web products and earlier business analysis experience. Available for focused frontend fixes, CMS improvements and small integration projects, approximately 3-15 hours per week.

EXPERIENCE

Full-Stack Developer | INDUSTRIA
Aug 2025 - Present | Sofia, Bulgaria
Work with Angular, TypeScript, Strapi and web integrations. Combine frontend implementation with CMS and backend tasks in an existing product environment.

Business Analyst / Content Strategist | INDUSTRIA
Mar 2025 - Aug 2025 | Sofia, Bulgaria
Contributed to user stories, process documentation, sprint planning and content work before moving into a full-stack development role.

SELECTED INDEPENDENT PROJECTS

UVE / SystemaWeb | Browser extension and product platform
Chrome and Firefox extension for video playback speed, audio controls, captions, keyboard shortcuts and per-site preferences. Product website, documentation and licensing integration.
systemaweb.com

PackTune | Shopify packaging application - early access
Product dimensions and packaging catalog, packing recommendations, 3D placement preview and printable packing instructions. React, TypeScript, Node.js, Shopify GraphQL, Prisma and PostgreSQL.
packtune.systemaweb.com

NestSyncFlow | Independent full-stack workflow project - private code
React and Express platform with JWT authentication, PostgreSQL / Prisma, WebSocket updates and analytics. Public showcase uses a conceptual visualization; no commercial deployment claim.
